

1.1.2 Write an Initial Problem Statement

Name: _____

During our last class, you identified a specific problem you are interested in solving. Today we learned about empathy and how identifying the need of the user helps us understand problems on a deeper level.

How does empathy play a role in your assessment of the problem?

Write a problem statement containing both a clear need and a target audience/user.

For example: *Teachers' rugs get dirty from student shoes, food, and spills in their classroom.*

1.1.2 Write an Initial Problem Statement

1.1.2 Compare Cell Phones T-Chart

	 Jitterbug	 iPhone 10
Intended USER of the phone:		
List at least 3 characteristics of the intended user.		
FEATURES of the phone: Do these features meet their needs?		

User 1: Features would this user want/need?		
User 2: Features would this user want/need?
