

**BIRDEE UNIT
DIGITAL PORTFOLIO
WEEK 7**

Name:

Date:

Engineering Design Process

1.7.2. Reflection

Name of Team Members: _____

Date: _____

PART I: You have received feedback from your classmates. You need to review the feedback and choose up to three suggestions/concerns (one from a different reviewer) that would be helpful to improve your design.

Suggestions for improvement you received	Potential plans to improve them
1.	
2.	
3.	

PART II. Final Design Reflection (As a team). Make sure to include all team members input in your responses.

1. As a team, what are you most proud of in your design?

2. What would you do differently, to make your solution stronger?

3. What did you learn about the engineering design process that you will remember a few years from now?

1.7.2. Peer Reflection Form

Reviewer's Name: _____

Team Members Names: _____

Date: _____

Directions: Listen to the team's presentation and provide feedback. The goal of the feedback is to capture their design's strength and to provide suggestions to improve their solutions.

1. What aspects did you like about their designs (be specific)?

2. What concerns do you have about their design (be specific)?

3. Can you identify a few suggestions for improvement?
